2/16/77--in re "P.S." matter, please note that P.S. could have gotten my address from telephone book. I have long had a separate listing under my name in the Phila phone book, with my own number. We have kept it in the book even after I moved out, just in case people tried to contact me. In this regard, I note that the envelop PS addressed to me did not contain my zip code in PHila, which is consistent with his having gotten the address from the phonebook.

Also, my letter to Wrone was intended to be light-hearted. Evidently, something was lost in the transition from mind to paper.

Best, HR
